

Recurring Task	Category	Rationale
College coursework	Just Me	I understand the concept myself before taking help from AI.
Java learning	Collaborate with AI	I use AI to clear my doubts and explain topics while I write the code myself.
DSA practice	Just Me	I solve problems on my own and only use AI if I'm stuck.
FlyRank Internship	Collaborate with AI	AI helps me learn new topics, then I complete the work myself afterwards.
Resume updates	Delegate to AI with review	AI helps improve the wording, but I make sure everything is accurate.
LinkedIn updates	Delegate to AI with review	AI helps me to organize my thoughts, and I edit the final post in my own style.
Learning AI concepts	Collaborate with AI	I ask AI questions and discuss concepts until I understand them.
Participating in hackathons	Collaborate with AI	AI helps with research and ideas, while I work on solutions with my team.
Building portfolio projects	Collaborate with AI	AI acts like a coding partner, and I decide the design and implementation.
Studying for GATE exam	Just Me	I need to build my own understanding as I will be writing the exam by myself.
